

Register with YCW

YCW is for 16-30 year olds. It brings young people together into groups to enable them to link life and faith and make a difference in the world. Through our process of reflection and action (see, judge, act) young adults grow in confidence and responsibility, becoming leaders in their own lives - serving, education and representing other young people.

Why register with YCW? When you register with YCW you will become part of the largest Catholic Youth Organisation, with contact with a million young people across the world. You will also gain the help and support of the training and development team, and be kept up to date with news, resources and invited to all our YCW events. YCW gives young people the chance to have their say and get involved in the issues that really matter to them.
